DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 1-4, 6, 7, 9-13, 15, 16, 18 and 21-30 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-4, 6-7, 9-12 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The newly added limitation “removing the corrosion-inhibiting layer incidental to a sputter cleaing step of the first portion of the metal layer” in claim 1 contains subject matter which was not described in the original specification. It is suggested to point out where the limitation locates in the specification.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 2813

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4, 6-7, 9-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "metal layer" in line 10, 15, 19. There is insufficient antecedent basis for this limitation in the claim. It is suggested to change to --first metal-containing layer--.

Claim 2 recites the limitation "metal layer" in line 1. There is insufficient antecedent basis for this limitation in the claim. It is suggested to change to either --first metal-containing layer-- or --second metal-containing layer--.

Claim 11 recites the limitation "metal layer" in lines 1, 3. There is insufficient antecedent basis for this limitation in the claim. It is suggested to change to --first metal-containing layer--.

There is a typographical error in claim 1, line 14, "cleaing" should be replaced with --cleaning--.

Allowable Subject Matter

Claims 13, 15-16, 18 are allowed because none of the prior art alone or in combination teaches or suggests the particular subset of the process steps in applying a corrosion inhibitor in the vapor phase to form the sacrificial layer on the exposed metal layer surface and the sacrificial layer consists of a monolayer of corrosion inhibitor then removing the corrosion inhibitor layer.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
